**European Framework for the Digital Competence of Educators – 6: Facilitating Learners' Digital Competence (p.23)**

Read page 23 point 6: „Facilitating Learners' Digital Competence". Afterwards, reflect on the questions below.

…What do you think?

➔ Do your digital materials allow your students to actively participate and speak up for themselves?
➔ In which ways are your students learning to critically reflect digital content?
➔ How do you include/how can you include an awareness for risks and dangers in digital spaces?
➔ Which topics need to be discussed more? Where do you identify a lack of information?
➔ What else would be needed to enhance a responsable digital use in the learners' behaviour?

✓ You can first reflect on your own and share your thoughts afterwards with your colleagues.

✓ Write some notes down if you want.
